## SCHEDULE OF RATES

### WORK CREW RATES

Typically a 2 person Labour work crew with a work Ute kitted with basic tooling and signage on an 8 hour shift would average a daily rate of \$1086+GST + materials and consumables + specific equipment.

Work crew rates are based on

- Hourly charge per crew member
- Type of work whether trade, labouring, engineering, consulting etc. (A crew member may do 3 hours general hand, 4 hrs HRW, and 1 hour crane operation. This will be noted on the daily work sheet and charged accordingly)
- Any High Risk Work elements such as Working at height, Rope access, Crane and Dogging, Mobile plant ops, Drilling and boring, High Pressure cleaning, working over or on water etc.
- Location and traveling time, whether remote or living away from home
- Weather and other allowances. Allowances are based on award rates and any of these will be noted when quoting or tendering.

### TRADE RATES PER HOUR

General hand	\$58.50
Trades person, carpenter, boilermaker	\$71.50
High Risk Work	\$71.50
